

Limit loss of energy

- Energy efficiency often too low
- Need to convert all energy into useful energy

Energetically autonomous

- Optimize energy harvesting
- High demand for sustainability

Patent status

- Spanish patent P201730168
- Submitted, not (yet) approved

Energy harvesting

- Structure of energy absorbers
- Storage in supercapacitors accumulation devices

Regulate energy usage

- Manage energy storage
- Accumulation balancing
- Industry-standard deployment
